Has Aroused Feeling.

Has Aroused Feeling.

Both the chief and Mr. Wyatt have many friends and partisans in the city, and there is unquestionably much projudice on both sides. For this reason it is expected that considerable feeling will crop up in the board at the hearing, if the case be gone into to-day.

Whether the investigation be gone into or deferred to-day, it is certain that public interest will not abate until there has been a full, fair and open inquiry. The matter will not end until Wyatt has been proved guilty or innocent.

has been a full, fair and until Wyatt has been proved guilty or innocent.

The present status of the Wyatt-Howard affair is the outgrowth of the sensation following the charge by Wyatt that the cantain of the district at that time would not permit him to raid gambling houses in the Second District, and the subsequent arrest by Wyatt and others of a number of men charged, tried and convicted of unlawful gaming. At that time a great pile of gambling paraphernalia was captured and publicly burned in a great bon-fire. Since then the patrolman has been much discussed; by many favorably, by others unfavorably, Just how much of the criticism of Wyatt is based upon prejudice or jealousy, if any be so based, will be in some measure disclosed at the hearing.

PUNISHES HIMSELF.

A Negro Prisoner Sticks Wires,

Pins and Needles in His Flesh.

Pins and Needles in His Flesh.

One of the most unique cases of selfpunishment that has come to the notice
of physicians in this section in many
years is that of Henry Watkins, a convict in the penitentiary, who is serving
a term of ten years for burglary from
tills city, and twho persists in sticking
pins, wire needles and other sharp things
which he can procure in his own flesh,
presumably to create the impression that
he is insane.

During his trial in the Hustings Court
Watkins sought to create the impression
that he was not in possession of his
mental faculties, and Judge Witt suspended action until a commission of
lunacy could sit and determine the status
of the man's mind. The commission pronounced him a same man, and the trial
was proceeded with, and he was given
ten years for burglary.

Dr. Carrington, the penitentiary surgeon, detocted nothing wrong with the
man when he was examined for admission. But when the prisoner appeared
with his fellows in line the second day,
he complained of pain in his right leg.
Dr. Carrington found, upon close examination, two needles and fourteen
pieces of wire in the backs of the man's
hands and in his forearms and legs. All
these objects were buried in the fiesh,
and it was with some difficulty that they
were located by the physician.

GIFT TO THE OLYMPIA CLUB

Manchester Bureau, Times-Dispatch, \ No. 1102 Hull Street, \ \ The Street Committee met lust night and transacted some routine business. This committee has done a lot of work during the past year, and expects to do more the coming ye amount appropriated to the use of permanent street improvements was \$7,000. This year the committee will ask for \$10,000. With that sum the streets, or at least the two that are in need of greater improvements, Stockton and Semmes, can be made most presentable, and it is the aim of the committee to

do this.

Chairman Patram hos been most energotic in this work. He wants to see the streets of Manchester compare favorably with any other city of its size in the country.

Some of the More Important Measures Offered in the Two Houses Recently.

AS TO LIQUOR LICENSES

Mr. Wickham yesterday offered in the Senate a bill offered in the House a day or two ago, increasing the salaries of some of the employes of the State Corporation Commission, and slightly augmenting that of Judge B. T. Crump, chairman of the commission. The chainess made by the bill are as follows: To increase the salary of the chairman of the commission from \$1,000 to \$1,200; to increase the salary of the chief cierk or secretary from \$2,000 to \$2,500, and to add to the commission's force an additional cierk at a salary of \$1,200, and to increase the salary of the mescager to \$500. In addition to these salaries the bill proposes to fix the contingent and incidental expense fund at \$3,500. The salary of the assistant cierk is left at \$1,500; that of the stenographor at \$1,500, and that of the balliff at \$500.

The movement to increase the salary

at \$906."

The movement to increase the salary of the chief clerk to \$2,500 is without suggestion from Mr. J. A. Upshur, who holds that position. It is reliably stated, holds that position. It is reliably stated, however, that Mr. Upshur has been urged to accept positions elsewhere at the increased salary and even larger sums. Among the members of the commission and those familiar with its arduous, responsible and important work, the impression is general that a man as competent as Mr. Upshur, and one with such thorough mastery of the work in every detail, cannot be had for the same figure, if, indeed, any one could enter upon the duties with the degree of competency possessed by Mr. Upshur, coupled with the experience he has had in the place. The volume of the work has grown as steadily that it has been found necessary

The volume of the work has grown so steadily that it has been found necessary to employ additional clerical help. It is said that Mr. Arthur N. Tyler, of this city, will probably be selected as the additional clerk provided for in the legislative bill. Mr. Tyler is now temporarily employed in the office of the commission. He was recently employed in extra work in the office of the Secretary of the Commonwealth, and is said to be a thoroughly competent man. The messenger, whose salary it is proposed to raise to \$900 is Norvell Atkinson, of this city, formerly a page in the General Assembly, and in the Constitutional Convention.

Among the bills offered in the General Assembly is one by Mr. Shands, of Southampton, proposing to release the titles of the State and of the countles and cities thereof to all real estate pur and cities thereof to all real estate purchased at the sales prior to the year 1893 and now held by them. The best statement of the purpose of the bill may perhaps be gleamed from the term of the measure itself. The bill is very brief

The object of the law as explained by the patron of the bill is to secure the dis-charge of such properties from liabili-ty for the delinquent taxes thereon. These ty for the delinquent taxes thereon. These taxes delinquent on them and hence cannot be sold. They are bought in and held by the State or by the cities and counties, and are of no productive value to any one. With the old scores of tax arrears wiped out, the lands might be sold and made profitable to some one. All the desirable properties on which taxes were in arrears have been taken up by the energotic land-grabbers, and only those not worth the arrearing of taxes are left. The bill is before the Committee for Finance and Banks.

Lovers of music for its own sake appreciated and enjoyed the work of the artists, and fornave the lack of divenatic ability in the singers, and overlooked the physical unitness of two membrs of the company, for the roles assumed by them.

A six-foot Carmen, in a skirt that touched the floor, and a Don Jose whose girth was of such proportions as to make him an unwieldy looking object, were not mattors to be considered by musical people.

Ame. Mantelli has a most pleasing voice, both in quality and power. She sang well, but was lucking in dramatic force and was tailer than any man in the Academy last night, Signora Vicini possessed a good voice, added to which sho had some dramatic ability, and a charming stage presence. thoroughly allvo to the peril threatening China has a result of the Russo-Japanese crisis and has, according to the Giobe's Shanghait correspondent, determined at all costs to fight for the freedom of Manchuria from foreign control. Conferences between the Dowager and the leading statesmen, it is added, have convinced her that any other policy would be tantamount to dynastic suicide, as the dishoner of the ancestral tombs, implied by foreign domination, would be unpardonable in the eyes of the Chinese, and unless a vigorous effort is made to reassert Manchu autherity, the Talpings and Kolasbul will attempt to restore the Ming dynasty, with the result of the complete destruction of China.

The correspondent adds that the Dowager has been informed that some of the foreign powers are willing to give the Manchus a final opportunity of rehabilitating themselves, even to the extent of adding them by force, if necessary provided the Manchu government is sincerely favorable to reform.

Fresh Apprehension.

"Considerable disturbance throughout Korea The Japanese have been attacked

Korea, The Japanese have been attacked in many places."

It is learned here that in view of the possibility of Korea being unable, to afford proper protection to Japanese subjects the Tokio authorities have dispatched a Japanese military officer of the highest rank, namely a major-general, to Seoul, where he will be in a position to direct any military operations that Japanese troops may undertake.

harbor. Both rivers are steadily rising. The Allegheny is already three feet higher than her consort stream, and as a consequence a dangerous lee gorge is now forming between the Wahash and Smithfield Street bridges, just above the confluence of the two rivers.

Business men, mill owners, residents and river men are included in the list of sufferers. The poor in some of the low-lying sections of the two cities may be hemmed in their homes until late Sunday night.

Until the waters subside it is likely the damage will continue, for there is lee enough in both rivers at this time to keep both the Allegheny and Monongahela Rivers well filled until Sundaymorning, and perhaps later. Forecaster Ridgway, in a statement issued at 11 o'clock to-night, could give no hope of a subsidence, for there was none in sight.

Early in the day, owing to the vigor-

a subsidence, for these was noted sight.

Early in the day, owing to the vigorous warning sent out in regard to the danger from the Allegheny, all of the coal barges and steamboats were sent to the Monongahela to gain the better protection of the pools and consequently stiller water. Already a barge containing 40,600 bushels of coal has been sunk and the whole fleet, with nearly 275,000 bushels on board, is likely to go down. At midnight the mark showed 28 feet of water in the Allegheny at Harris island, and 25.8 feet of water in the Monongahela at Market Street.

There was a daring rescue of valuable property on the Monongahela to-night when the barges Maine, Chester and Mississippi broke from their moorings and swept out into the ice laden stream, apparently to certain destruction. The three barges were loaded with railroad iron, valued at \$180,000. A distress signal was sounded from the point bridge and three tugs tried to check them. For two miles down the ice choked river three beats battled to the rescue. After a hard and gallant strugle they were brought under control and landed at the head of Brunot's Island.
